

“Alfa Repair & Restore Tips” has been added to the AROC website General Forum area.

The “Alfa Repair & Restore Tips” area would be used to publish information when you have found something that will help another Alfisti repair, restore, or modify their Alfa.

So if you have discovered a new supplier, new repair method, new restore idea, or new work process then you can publish it here, add it to the Alfa Romeo Book of Knowledge here, and get the credit.
