

2010 AROC Catoctin Meander TSD Rally Results

The Catoctin Meander TSD was held Friday, June 25, 2010, amidst a banner period for heat and for road closures in the Frederick, MD, area. But our intrepid TSD entries pressed on regardless (and sometimes regardless of the route instructions). The rally was a bit over two hours in length, with 35 instructions. There were two checkpoints, one at the McDonalds pause location, and the other at the Road Closed sign about two miles short of the shady park and covered bridge that was the intended finish. Out of 32 entries, 5 failed to proceed past the two checkpoints within their plus/minus 10 minute timing windows. We believe that one had a hardware problem, and the others had software issues.

Though this was a beginner's level rally, some entries were quite experienced. Those who were true beginners, who followed the no-electronics rules, and who finished in the top half, deserve special congratulations.
